THE INTERNATIONAL INSTITUTE ON RACE, EQUALITY AND HUMAN RIGHTS

Is an international, human rights capacity-building organization that works side by side with activists in Latin America to enhance their ability to promote and protect the human rights of marginalized and vulnerable people who suffer from discrimination based on their national or ethnic origin, their sexual orientation or gender identity. We strengthen grassroots organizations, helping them to become political actors able to promote structural changes in the countries where we work. Our methodology consists of providing technical assistance in order to help our partners monitor and document human rights abuses and increase their advocacy capacity at the national, regional and international levels.

TOWARD A REGION FREE FROM RACIAL DISCRIMINATION

Race and Equality has launched the regional campaign “Toward a Region Free from Racial Discrimination” in an effort to promote ratification and effective implementation of the Inter-American Convention Against Racism, Racial Discrimination and Related Forms of Intolerance (known as CIRDI, in Spanish) by the year 2024. The campaign will span the next three years and seek to combat racism and racial discrimination worldwide. It is made possible thanks to the support from a grant by the Apple Corporation. Read more about our efforts and keep up with the campaign by visiting the CIRDI 2024 site.
