Visão Geral sobre os Alertas

Análise de Performance

A Análise de Performance é feita a partir da revisão das imagens completas da partida e dos dados relacionados à ação no campo de jogo. Ela tem caráter complementar à análise de monitoramentos dos mercados de apostas.

Situações que costumam ser analisadas (rol exemplificativo):

- Revisão de lances de gols/pontos;
- Quaisquer erros não-forçados que contribuam para o êxito de apostas suspeitas;
- Quaisquer decisões incomuns tomadas por árbitros;
- Identificação de tendências e padrões adotados por certos indivíduos;
- Conclusões baseadas em análise objetiva de dados + análise subjetiva de especialistas.

Performance Analysis (Full Game)

This report, as requested by (Client), has been produced in order to highlight any on-field actions that may warrant further investigation in the fixture between Team A and Team B (24/08/2022). Whilst Genius Sports Integrity Services have been asked to identify specific passages of play which may be considered unusual, it is important to note that all Performance Analysis in this document are based on our opinion only.

In our experience, certain individuals aiming to manipulate a game will sometimes try and implement personal tactics or strategies in order to benefit from successful betting and/or sporting incentive. With that being said, it is important to highlight that Genius Sports are not suggesting that any individual is definitely involved in any impropriety, but certain incidents during this game have been highlighted for further examination. This report has also been compiled independently of the analysis of any betting patterns – unusual or otherwise.

An 'error', in the context of this report, relates to any time Genius Sports have perceived that a player performed an action that might be considered to be below the level expected of them.

After reviewing the full match footage (available here: ____), it could be speculated that certain individuals from Team B were potentially playing below their full capabilities.

Below, we have outlined all of the instances that Genius Sports feel errors were made by Team B.

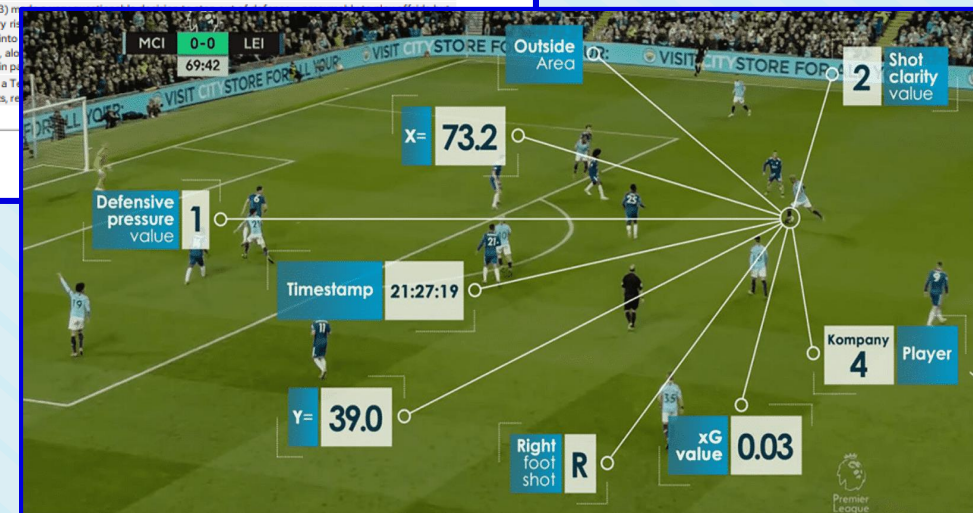

Goals

Initially, it was concerning to see that all three Team A goals arrived as a result of bad defending and/or decision-making by Team B. Please note that, where available, the official match clock has been referenced.

Time (Score)	Description
33:21 (1-0)	Player (#5) and Player (#3) were both beaten to the low cross by an attacker, inside the six-yard area. This resulted in an own goal.
51:30 (2-0)	Player (#3) under very high pressure, he, alone, made progress into the defensive half, he, alone, tackled (#6) and in the process, he, alone, made progress into the defensive half.
63:55 (3-0)	Following a Tackle, Player (#3) was beaten to the low cross by an attacker, inside the six-yard area.
